

# Float unit for RJ45 Test Connector

MA092003

## OVERVIEW

MA092003 is a float unit for Bluelec shielded RJ45 test plug, MA002667.

It compensates the possible misalignments between test system mechanics and DUT socket and enables smoother insertion of the test plug.

Default position of floating part is '0' for all axes.  
Displacement of Z is needed to allow displacement of X and Y.

## SPECIFICATIONS

Displacement Zmax	+0.0 / -0,5 mm
Displacement Xmax@Zmax	+/- 0,3 mm
Displacement Ymax@Zmax	+/- 0,3 mm
Spring force F @ Z0	~10N
Spring force F @ Zmax	~14,5N
