ANTENNA COUPLER · DATASHEET

Wideband Antenna Coupler

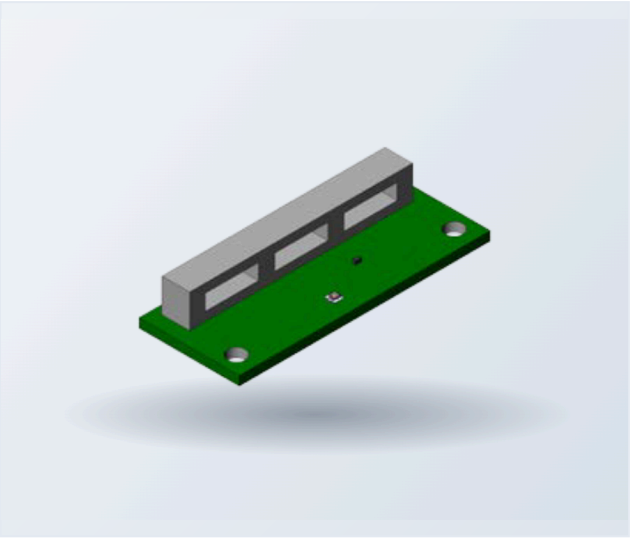

BLUELEC
Part of JOT Automation

MB001504 | 698 – 2700 MHz | 50 Ω · JSC

Bluelec MB001504 is a wideband antenna coupler for near-field testing of mobile-device antennas across 698 MHz to 2700 MHz. It provides repeatable coupling over all cellular 2G/3G/4G bands and complementary BT/WLAN/GPS bands from a single compact coupler.

- Cellular 2G/3G/4G plus selected BT/WLAN/GPS/GNSS-related test applications.
- Excellent near-field coupling across the full 698 – 2700 MHz range.
- Board-mount JSC connector for compact, dense fixtures.
- Nominally linear coupling field with broad angular near-field response.

Fitted with a board-mount JSC RF interface and 50 Ω termination, the coupler integrates easily into automated handlers and high-density test fixtures where space is limited.

ELECTRICAL

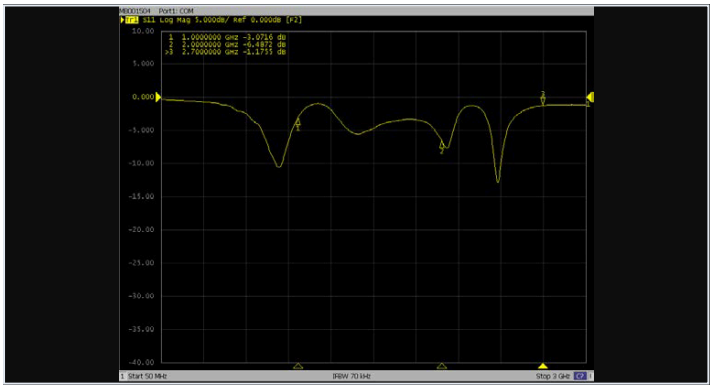

Frequency range	**698 – 2700 MHz**
Nominal impedance	**50 Ω**
Nominal polarization	**Linear**
Near-field coupling	**Broad angular response**

MECHANICAL

RF connector	**JSC**
Coupling	**Near-field**
Compliance	**RoHS**

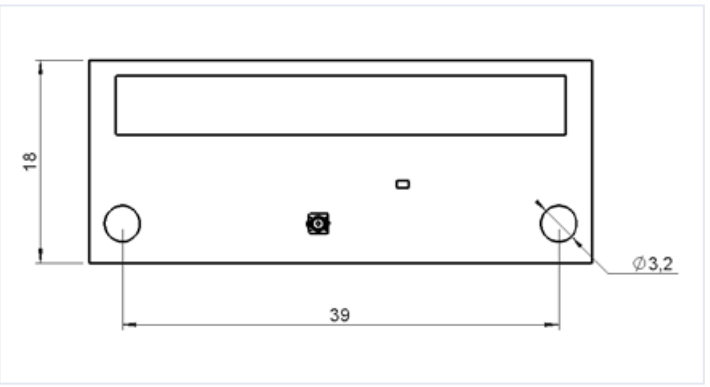

COUPLING RESPONSE

reference, no DUT

DIMENSIONS

mm

ENVIRONMENTAL

Operating temperature	**0 – +60 °C**
Relative humidity	**15 – 95 % non-condensing**
Storage temperature	**−20 … +70 °C**
